

UNIVERSITAS GADJAH MADA
FACULTY OF PHARMACY

International Undergraduate Program

2025 edition

About Us

International Undergraduate Program (IUP) at the Faculty of Pharmacy, UGM—where innovation meets excellence in pharmaceutical education. As Indonesia's leading institution in pharmacy, we are dedicated to nurturing future global leaders in healthcare.

Our program combines offers a world-class education designed to shape global leaders in healthcare in such of a cutting-edge research, and practical training to prepare students for challenges in the dynamic pharmaceutical field. With access to international mobility opportunities, internships, and collaborations, students gain invaluable global exposure.

IUP Pharmacy students will learn basic pharmacy courses according to the existing curriculum in the first and second years. They will engage in international exposure in the third and fourth years through short programs and mandatory exchange programs overseas to partner universities in Malaysia, Thailand, taiwan, Japan, Germany, the Netherlands, and many more to support their studies.
